

## WHICH “CTREE KIT” SHOULD WE REQUEST?

Below is a list of the CTree Kits that you can request. The species listed are examples of what could be included in each kit. They are not a definitive listing of available species as nursery availability fluctuates season by season. CTree Kits can be modified to suit your planting site, but any specific requests must be marked by checking “Specific Trees” on Page 6 of your application and then detailing your requests on Page 8.

<b>Kit</b>	<b>Stock Size<sup>1</sup></b>	<b>Example Projects</b>	<b>Example Species (<i>SUBJECT TO CHANGE</i><sup>2</sup>)</b>

<b>Riparian-100</b>	100 small trees	<a href="#">Wardensville Garden Market</a>	

<sup>1</sup> “Stock Size” refers to the size of the tree at time of planting, not the size of the tree as it matures. “Large trees” are typically in 7-gallon containers, 6-8’ tall, and 1” caliper. “Small trees” are typically in 3- or 5-gallon containers, 4-6’ tall, and ½” caliper.

<sup>2</sup> Species and stock size are subject to change based on nursery availability.
